ISONewEngland dataset Load Forecasting - Cross-Validation of 20-fold

```

Dataset: ISONewEngland
Years: ['2015', '2016', '2017', '2018']
CrossValidation: True
KFOLD: 20
OFFSET: 0
FORECASTDAYS: 15
NMODES: 5
MODE: ewt
MODEL: ewt
BOXCOX: True
ALGORITHM: ensemble
Time Series Regression - Load forecasting using ensemble algorithms Dataset
import has been started
Data cleaning function has been started
Feature engineering has been started
Adding date components (year, month, day, holidays and weekdays) to input
data Adding bridge days (Mondays / Fridays) to the Holiday column
Plot Histogram
No handles with labels found to put in legend.
Box-Cox transformation
Plot Histogram after Box-Cox Transformation
No handles with labels found to put in legend.
Empirical Wavelet Transform (EWT) has been started
0.454 seconds - Empirical Wavelet Transform (EWT) has finished.
Load Forecasting algorithm has been started
CrossValidation has been started
Predict 20-folds each by 15.0 days
